## Minimum Vectoring Altitude CHART

The diagram is a circular plot with concentric circles representing distance from the center. Radial lines divide the circle into sectors, each labeled with an angle. The regions are defined by these radial lines and concentric circles. Key regions include:

- CBE**: Central region around the origin.
- KCC**: Region near the top center.
- LHT**: Region near the bottom center.
- AK**: Region on the left side.
- C**: Various regions labeled with letters like C, K, L, A, etc., often followed by a number (e.g., C18NM, K15NM).

Numerical values are placed throughout the diagram, likely representing the count of points in specific areas or at specific distances. For example, values like 1800, 2500, 3500, 4000, 5000, 6000, 7000, 8000, 9000, 10000, 11000, 12000, 13000, 14000, 15000 are visible. Some values are enclosed in boxes or circles. Arrows point from some numbers to specific locations on the diagram.
